

ASSAILANT OF GIRL ARRESTED

Hermann Oelrichs Identified
By Miss Singleton—Is
Locked in Cell.

New York, Oct. 1.—Hermann Oelrichs, Columbia law student and son of the late Hermann Oelrichs, shipping merchant, was arrested by order of Deputy Police Commissioner Dougherty late tonight on a charge of felonious assault as the result of a story told to the police by Lucille Singleton who says she is the 19-year-old daughter of a Texas mine owner.

At the same time, a detective Theodore Trayer, who had investigated an automobile accident to young Oelrichs on Broadway last night was suspended. Trayer's report regarding the accident in which Miss Singleton had been reported "injured" by being tossed through the windshield of the machine was not satisfactory in the light of developments in the case as obtained later by other detectives. It was announced at police headquarters.

Miss Singleton told these detectives, according to Dougherty that she had been stabbed by a man to whom she alluded as "Creighton" her companion in the car. Trayer, prior to this had reported, said Dougherty, that Miss Singleton told him she was not stabbed and that in reply to a question whether she knew Oelrichs, she replied she did not.

Oelrichs identified. Dougherty announced later tonight that Miss Singleton had identified Oelrichs as her assailant, declaring the automobile accident happened when Oelrichs let go the steering wheel to attack her. A few minutes before this, Dougherty said, Miss Singleton declared, she had told Oelrichs that she had a dinner engagement with another man. The machine, however, striking a stone, crashed into a tree, belonged to Oelrichs. The girl's companion fled, leaving the wrecked car behind him, and Miss Singleton was removed to a hospital and later to her home.

A youth wearing glasses and saying he was a detective called on Miss Singleton today and advised her to settle the case for money. Detective Dougherty, after a conversation in which the sum of \$5,000 was mentioned, said an understanding was reached that Creighton was to give her \$400.

Commissioner Dougherty tonight arranged for Miss Singleton to telephone the home of Creighton, and ask him to come to her home, which she did. Detectives concealed themselves there and Oelrichs and a companion, they say, walked in and Oelrichs was arrested as a result of a conversation between the two and Miss Singleton. The other man was not made a prisoner. The young woman's condition it was said today is not serious.

Oelrichs was locked up in a police station cell tonight to await arraignment tomorrow. He is 22 years old and a first year student in the law school.

DIVORCE VIEWS CAUSE SENSATION

Southampton, Eng., Oct. 1.—The Very Rev. Herbert Hensley Henson, dean of Durham caused a sensation at the Church of England Congress tonight by a speech in which he openly approached divorce. He declared that the full significance of the growth of the movement in favor of divorce was not to be explained by an outbreak of licentiousness. Its strength lay in the fact that it gave expression to the distinctly Christian factor of self respect that would not acquiesce in a union which actually had become degrading. It was an error, he said, to fasten attention of divorce statistics as if any considerable importance attached to them. What really mattered was the standard of personal purity.

The audience listened with some show of uneasiness to Dean Henson's views and was manifestly relieved when he concluded. Other delegates insisted that the church must maintain the doctrine of the permanency of marriages.

HEAVY QUAKE ROCKS COLON

Disturbance More Severe
Than Any Within Memory
—People Panic Stricken.

Colon, Oct. 1.—A severe earthquake occurred here at 11:20 o'clock tonight. The disturbance was of nearly a minute's duration. Houses were rocked and the entire population was aroused and thousands filled the streets and remained there in fear of the collapse of their houses.

The earthquake was the heaviest within memory. A second slighter shock occurred at 11:40 o'clock.

"The Gatun locks," was on everybody's lips, but it was impossible to night to learn whether any damage had been done there.

The disturbance begun with a slow oscillatory movement which gradually became more marked. Houses swayed, clocks stopped and articles of furniture were thrown to the floor. Many of the residents became half panic stricken and women rushed from the homes with children in their arms. So far no damage of any serious nature has been reported.

Panama, Oct. 1.—Two earthquakes of an intensity much more severe than any disturbance since the Americans took possession of the canal zone occurred late tonight. They were felt from Panama City to Colon.

The first shock, as experienced in the capital, was slight and was quickly followed by one of longer duration which shook buildings to their foundation. The church bells were set

FREE

This New, "Dandy" Safety Razor

(While the Supply Lasts)

FREE To Every Purchaser of 10c Worth of "PIPER HEIDSIECK" Chewing Tobacco

This is the most remarkable FREE offer ever made with tobacco. Phone 504 or 542 from 1 to 3 p. m. Friday, October 3.

to ringing; doors were thrown wide open and residents were brought tumbling out of the beds.

The first movement lasted about 5 seconds. It occurred about 11:20 o'clock. The second movement was of 10 seconds duration.

The people at midnight were gathered in the streets. Jamaicans, who went through the disaster at Kingston, and Italians, who have had similar experiences in their home country, were particularly alarmed.

According to the seismograph there

were two slighter shocks but these were practically unnoticed. The general movement appeared to be from west to east. Those familiar with earthquakes said the movement was more of an upheaval than a vibration from side to side. There has been no severe damage to buildings and no damage to the canal, is so far reported.

charged by information with murder in the first degree, to require the district attorney to change the charge to one of voluntary manslaughter, on the ground that the defendant, after a preliminary examination before Justice E. L. Jones, was held on the charge of voluntary manslaughter, was argued today before Judge A. B. Morgan by Attorney Evans for the defendant and District Attorney J. H. McDonald for the state. The motion was denied, and the defendant entered a plea of not guilty. Two Mexicans

who were held as witnesses and treated as trustees have mysteriously disappeared. The offense for which the defendant is held is the killing of Jose Sanchez, at Colton, on August 14, while the two men and others who were engaged as railroad laborers engaged in a fight.

WILL TRY TO CHECK MALADY AMONG DUCKS
Washington, Oct. 1.—Upon recommendation of Congressman Joseph Howell, the secretary of agriculture

will include in the agricultural appropriation bill an item for the establishment at the beginning of next season of a station in Utah to determine the cause and remedy of the malady which has been prevalent among the ducks along the shores of Great Salt Lake for four years.

Experts of the department have failed to determine the source of the disease, which at first was believed to be bacterial, but is now thought to be mineral poisoning arising from the smelters.

What we especially like about the timorous, fragile and dependent type of woman is that she can get married three times before her strident sister has succeeded in harpooning even one husband.—Galveston News.

Salt Lake is in the line of flight of the ducks from surrounding states and the vast benefits to be derived from the earnest efforts of Mr. Howell in having this station established will be felt all over the intermountain country.
